- Based on **CAPSULE** for **KONTAKT Player**

- **160 GB of samples** (75 GB NCW compressed)
- 24Bit / 48KHz Patches

METROPOLIS ARK 1

METROPOLIS ARK I is inspired by a cinematic monument from 1927 - The first ever epic science fiction motion picture of our time. A Berlin original which inspired us to preserve all its strength, greatness and bold exceptionalism in **a monumentally powerful collection** to bring it back into the latest cinematic soundtrack productions.

METROPOLIS ARK I contains a huge **Orchestra, Choir, Electric Guitars, Percussion, a Grand Piano and a magnificent Drumset**, all recorded with first call musicians at the **Teldex Scoring Stage**. METROPOLIS ARK I features **the loudest imaginable dynamics** starting from mf upwards to ffff. Everything is designed to be loud, to be bold and boundary-shatteringly epic. This Collection opens a whole new world for Orchestral Tools, who are well known for their **Berlin Series**, a virtual Orchestra that set a new standard and is **used by many high-profile film composers in Hollywood** and around the world.

A UNIQUE SOUND

There is one vision and everything is built around it:

Special sections like **4 Contra Bassoons** playing in unison, a **Bass Trombone Ensemble**, a **Cimbasso Ensemble** or **12 Basses + 6 Celli** playing together in octaves. METROPOLIS ARK I includes different French Horn ensembles: **A big 9 piece Horn Section** for soaring, thick Horn melodies and a smaller 3 piece Horn Ensembles, specifically designed to play chords. Together with incomparable **Powerchords recorded wet** at the scoring stage with two different Guitars and a sinister **massive Choir singing at the highest dynamics**, this Collection will rise your compositions to a whole new level.

A FLEXIBLE WORKING TOOL

Instead of pre-mixed sections, METROPOLIS ARK I offers pure and unprocessed instrument groups to give you all the flexibility to arrange your own orchestrations. Extensive Articulation Sets additionally offer Swells, Crescendos, Glissandos, 2 different lengths of Marcato, Shorts, etc. on more than 80GB of compressed sample material.

METROPOLIS ARK I marks the next generation of Fortissimo and it is a revolution of Epic in one single box.

FINCKENSTEIN STRINGS (HIGH)

25%
DISCOUNT

If you are student, teacher or if you would like to integrate Orchestral Tools products into your educational programme you'll get a 25% discount on our whole product palette. We also provide attractive rates on multi-user licenses. Please send your request and a copy of your student ID or an adequate proof that you qualify for EDU rates to support@orchestraltools.com

HD BACKUP SERVICE

To avoid long download times with slow internet providers or as a backup solution to save your *Orchestral Tools* collections, we recommend our HD backup service on a super fast SSD. Add this product to your shopping cart before checking out to get all libraries in the current order on a **SSD storage device**.

The drive will be shipped within 2-3 weeks after placement of order (if the library is already released).

Delivery time depends on target country and customs.

TYPE: 2.5" SATA III

TYPE: 840 EVO Series

STORAGE: 250GB Capacity

FEATURES: Sequential Read Speed: 540 MB/s
