The **Nocturne Cello** is the second installment to Orchestrals Tools' new **Soloists Series**. A series of beautiful sounds from selected artists from Berlin which we **captured with a solo-style dynamic range** and a variety of lyrical expressions.

Months of development and test recordings led us to new concepts in legato and articulation sampling and with **CAPSULE** this instrument will be usable in a very intuitive way.

New techniques and an extraordinary sampling approach makes this Solo Cello playable at a degree of realism and variety of expression never heard before. Because we recorded this exceptional beauty in the **Teldex Solo Booth**, it will perfectly fit to the Berlin Series. The specific acoustic properties of this room lead to a more intimate and direct sound.
